Quick Guide

SLA-T16080WA

Warranty

For details, see the Product Warranty Information page on Hanwha Vision website.
<https://www.hanwhavision.com/en/support/warranty/>

Videos processed by surveillance equipment cannot be accessed arbitrarily by the manufacturer.

Hanwha Vision cares for the environment at all product manufacturing stages, and is taking measures to provide customers with more environmentally friendly products.

The Eco mark represents Hanwha Vision's devotion to creating environmentally friendly products, and indicates that the product satisfies the EU RoHS Directive.

Correct Disposal of This Product (Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

Correct disposal of batteries in this product

(Applicable in the European Union and other European countries with separate battery return systems.)

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.

1. Read all safety and operating instructions before using the device.
2. Keep these instructions for future reference.
3. Follow all warnings and cautions marked on the product.
4. Follow all operating and installation instructions.
5. Do not use this device near water or in excessively humid environments.
6. Clean the surface of the product with a soft, dry, or slightly damp cloth.
(Do not use detergents, alcohol-based, solvent-based, or oil-based cleaners, as they may damage the surface.)
7. Do not block ventilation openings. Install the product according to the manufacturer's instructions.
8. Do not install near heat sources such as radiators, heat vents, stoves, or other devices (including amplifiers) that generate heat.
9. Do not bypass or disable the safety feature of the polarized or grounding-type plug.
 - A polarized plug has two blades, one wider than the other.
 - A grounding-type plug has two blades and a third grounding pin.These features are designed for your safety. If the provided plug does not fit your outlet, contact a qualified electrician to replace the outdated outlet.
10. Protect the power cord from being stepped on, pinched, or damaged—especially at plugs, receptacles, and where the cord exits the device.
11. Use only the attachments or accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table recommended or supplied by the manufacturer.
When using a cart, move it carefully to prevent the unit from tipping over and causing injury.
13. Unplug the device during lightning storms or when it will not be used for long periods of time.

14. Refer all servicing to qualified service personnel. Servicing is required if:
- The power cord or plug is damaged.
 - Liquid has been spilled or objects have fallen into the device.
 - The device has been exposed to rain or moisture.
 - The device does not operate normally.
 - The device has been dropped or physically damaged.
15. This product must be powered only by a UL Listed power supply unit marked "Class 2," "LPS," or "PS2", rated at 5 VDC, 0.25 A.

Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
