

Hanwha Vision LenelS2 OnGuard NetBox

for Wisenet WAVE VMS

LenelS2 NetBox users can now view live and recorded video from their Wisenet WAVE VMS system. Through the LenelS2 NetBox interface, system operators can add cameras from the Wisenet WAVE VMS and view the relevant footage from the NetBox platform.

Key Features

- ✓ Import cameras configured in Wisenet WAVE
- ✓ View live WAVE video
- ✓ View recorded WAVE video from an alarm
- ✓ Video playback controls
 - Pause
 - Resume
 - Fast-forward
 - Next Frame
 - Previous Frame
- ✓ Create NetBox alarms based on WAVE cameras detecting Motion, going Offline or coming back Online
- ✓ Associate WAVE cameras with NetBox hardware like doors and readers for easy video verification
- ✓ Control WAVE PTZ cameras within the NetBox UI

Requirements: WAVE Versions 5.0.0.35745 or higher | Lenel S2 NetBox Version 5.6.2 or higher
